Commissioner for Patents

Alexandria, VA 22313-1450

The present application is a continuation of patent application 10/097,162 (pending).

Applicants would like to note that allowed claims 1-14 are pending in the parent application. Based on recent telephone correspondence with Examiner Shingleton, it is the Applicants' understanding that the Examiner will issue a double patenting rejection in the parent application on these claims. Applicants would also like to note that claims 15-20 were included with the original filing of the parent application, and were initially rejected by the Examiner based on two references; Kopley US 6,203,516 and Webster's Ninth New Collegiate Dictionary (note that Tarui, JP 2001-74559, and Toffolo, IEEE Colloquim on ASICS 4/10/92 p. 2/1, were made of record in the parent application, but were not relied upon by the Examiner).

Respectfully submitted,

By
